Message From The Rector

Dear Students, Faculty, and Staff

As we reflect on another remarkable year at our esteemed institution, I am filled with pride and gratitude for the collective achievements and enduring spirit that define our college community. This year's magazine captures the essence of our journey - one marked by academic excellence, innovative pursuits, and a vibrant campus life.

Our students have continued to excel in their studies, demonstrating not only academic prowess but also a deep commitment to extra curricular activities and community service. Their resilience and adaptability, especially in the face of unprecedented challenges, are truly commendable .

Our faculty and staff have remained steadfast in their dedication to providing a supportive and enriching learning environment. Their efforts to foster intellectual curiosity and personal growth in our students are the cornerstone of our institution's success.

This publication is a testament to the creativity, hard work, and passion of everyone involved . It showcases the diverse talents and perspectives that make our college unique. From thought provoking articles and research highlights to stories of triumph and inspiration. Each page is a celebration of our collective accomplishments.

As we look to the future, let us continue to embrace the values of integrity, innovation, and inclusivity. Together, we can build on our success and strive for even greater heights. "Together is the way", is our motto .Together towards excellence -this is what we try to achieve at Arnold's.

Thank you for being an integral part of our college family. I wish you all continued success and fulfillment in your endeavors.

Warm Regards,

Rev. Fr. Dr. Scaria Pannackal SVD
Rector

Message From The Principal

Dear Students, Faculty and Esteemed Readers,

I am delighted to welcome you to this special edition of our college magazine. This year, our theme, "Together is the Way," beautifully encapsulates the essence of unity and collaboration that drives our institution. Our collective efforts have not only fostered a nurturing environment but also led to numerous accomplishments, including our proud achievement of First-Time Affiliation. This milestone is a testament to our commitment to excellence and continuous improvement.

I extend my heartfelt gratitude to Rector Father Scaria for his outright support and guidance. His unwavering commitment to our vision has been a cornerstone of our progress. I also thank the management members for their invaluable support and encouragement, which have been vital in our journey towards excellence. Their dedication and strategic direction have empowered us to reach new height.

I am particularly proud to highlight the exceptional performance of our final-year students. Their dedication and hard work have resulted in outstanding academic achievements, setting a benchmark for future batches. Congratulations to each of you for your outstanding success

I would also like to acknowledge the remarkable contributions of the Internal Quality Assurance Cell. IQAC has played a crucial role in ensuring that our academic and administrative processes are continually enhanced, aligning with best practices and standards.

In line with our commitment to innovative education, our college has adopted experiential learning methodologies, making learning more engaging and enjoyable. Hands-on projects, and interactive workshops have enriched the academic experience, allowing students to apply theoretical knowledge in practical settings. This approach has not only enhanced their skills but also prepared them for real-world challenges.

Our college has been a hub of vibrant activities, organized by various committees. The Sports Committee has conducted exhilarating tournaments that have kept the competitive spirit alive. The Students' Council (Cultural Committee) has brought joy and creativity to our campus with numerous events showcasing the diverse talents of our students.

The NSS unit has also been exceptionally active, organizing various community service initiatives and awareness campaigns. Their activities have not only benefited the community but also instilled a sense of social responsibility and civic engagement among our students. Additionally, other committees have contributed significantly to the overall development and engagement of our college community.

I would like to extend my heartfelt thanks to the editorial team, faculty members, and all the students who have contributed to this edition of the magazine. Your efforts in bringing this publication to life, despite various challenges, are truly commendable. I also want to thank our students for their unwavering support and cooperation in all our endeavors. Your enthusiasm and dedication have been the driving force behind our success.

As you explore the pages of this magazine, I hope you find inspiration in the stories of collaboration, perseverance, and success. Let us continue to work together, support one another, and strive for excellence in all our endeavors.

Thank you for being an integral part of our journey and for embodying the spirit of "Together is the Way."

Warm Regards,

Dr. Sharon Samuel

I/c. Principal

From The Editors' Desk

"Education is not just about going to school and getting a degree. It's about widening your knowledge and absorbing the truth about life.

– Shakuntala Devi

It gives us an immense pleasure to write from the Editorial desk of our college magazine "***HORIZON***". As we all know that a college magazine is a mirror of college life. It portrays the efforts made in academics in our allied departments of B. Com & Self-financed courses, literary arts which includes treasure of poems and stories in Regional and English language, sports activities and achievements, beautiful snaps of memories of various events, workshops, fests; competitions; inter-collegiate competition, social & extra-curricular activities that took place in the academic year. Along with this it highlights several other achievements of students and faculties in research during the Academic Year 2023-2024. It brings a lot of encouragement and inspiration that help our young friends to bring forth their talents and inspiration and to use them in the right direction. This issue of the magazine is truly treasuring allied branches of the college.

We would like to sincerely thank the magazine & editorial team of students who worked round the clock tirelessly to sort, format & edit contents of the magazine. Keep up the good work students! The team enjoyed to compile the magazine immensely and bring out the same to you readers.

Kudos for the valuable support & guidance which we received from our Rector. Rev Fr. (Dr) Scaria Pannackal to support in our endeavour to bring out this magazine. We would like to thank our beloved In-charge Principal Dr. Sharon Samuel for her constant encouragement and entrusting us the responsibility of publishing this magazine.
We heartily wish all readers our best wishes and hope this magazine earns your critical acclaim and prove itself to play a vital role shaping your life. Wishing all readers a Happy and memorable reading time!

Lastly always remember that "There are no limits to what you can accomplish, except the limits you place on your own thinking"

– Editorial Team

Message from Student Editors

"Together is the way to build lasting relationships and a strong community.
Connection and cooperation form the foundation of progress."

– Srujan Jangam

"Collaboration cultivates trust and mutual respect.
Working together, we build a foundation of reliability and support."

– Suraj Singh

"Being together more than a strategy, is a philosophy.
With collective efforts even the biggest obstacle means nothing, hence I strongly believe
"COMING TOGETHER IS A BEGINNING,
KEEPING TOGETHER IS PROGESS,
And WORKING TOGETHER IS SUCCESS"

– Krupali Gurav

"In times of challenge, togetherness provides support and resilience.
We lift each other up and push forward as a united front."

– Asiya Shaikh

Unity fosters creativity and innovation. When we come together, our diverse perspectives can lead to extraordinary solutions

NIGHT DEGREE COLLEGE OF ARTS

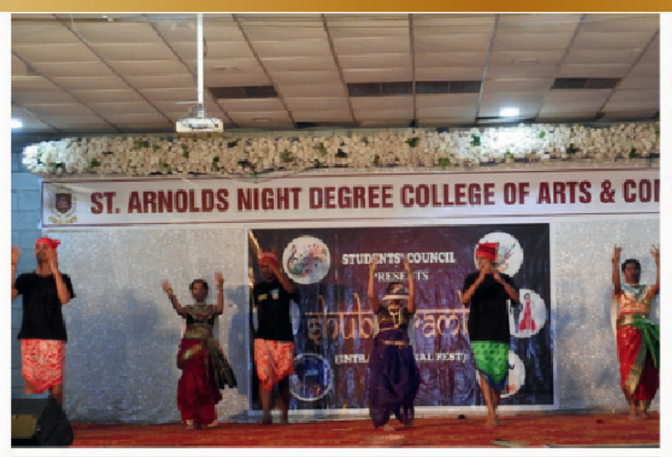

CLASSICAL
INSTRUMENT

Shubharambh is our first Intra-college cultural fest. Shubharambh is a celebration of cultural diversity, fostering a sense of pride & unity among the college community. This fest is a platform for participants to unveil their vibrant hub of artistic expression, captivating performances, art installations, and immersive cultural displays. The fest features an array of activities including, Vocals, Art, Dance, Literary, Fashion Show and Digital Creativity. Shubharambh will lay the foundation for future cultural extravaganzas, marking the beginning of a cherished tradition in our academic journey.

Shubharambh

MR. & MISS. ARNOLDIAN

MR. AMANPREET SINGH BHATIA

For me being a "Mr. Arnoldian" is the honour beyond words. Receiving this award has taught me the value of hardwork and respect towards talent. It was my dream to be in the head position of St. Arnold's degree college and in the year 2023-24 with the blessings of God and through immense support of my fellow friends I achieved two things:
1st - Vice president of St.Arnolds night degree college.
2nd - Won the Title of Mr.Arnoldian.
With these great achievements, once again I thank all my dear teachers and friends who were always my backbone during my success.
"The only place where success comes before work is in the dictionary but success is not in what you have, but who you are is the main success"

MISS. SUBHI SINGH

Winning the Miss Arnoldian was an incredible experience that highlighted my dedication, confidence, and passion. It was not just about the crown, but about the journey of never quitting and believing oneself and all about the self growth. This achievement has inspired me to pursue my dreams with even greater enthusiasm and to encourage others to do the same.

ARTICLES

THE CLEVER SOLUTION: OUTSMARTING THE ODDS

Once, a small village farmer had the misfortune of owing a large sum of money to a village moneylender. The moneylender was old, unmarried and fancied of marrying the farmer's beautiful daughter. One day the farmer went to the moneylender to ask him for some more time to return the loan. The money lender pretended to be furious for a while and then proposed a bargain. He said that if the farmer would not repay his debt, he would be punished or he had an option to let the money lender marry his daughter and all his debt would be waived.

Both the farmer and his daughter were horrified by the proposal. There was no way the farmer could pay back the money soon and he did not want his beautiful daughter to marry the old and cruel money lender.
The cunning moneylender suggested that they let the providence decide the matter. In an attempt to persuade the farmer to accept his deal, the money lender made an attractive condition in deciding the fate of the father and daughter . He would keep a black and a white pebble in a bag. The girl then had to choose a pebble which would decide her fate. If she picked the black pebble, she would have to marry the money lender and her father's debt would be forgiven. If she picked the white pebble she did not need marry the money lender and her father's debt would still be forgiven. If she refuses to pick the pebble, the farmer would be thrown into jail .

They were standing on a path scattered with pebbles. The moneylender even called the nearby villagers to witness the event, so that no party could walk away from their words. The money lender bent over, picked two pebbles and kept it in a money bag. The sharp eyed girl noticed that he had picked two black pebbles instead of a black and a white . He then asked the girl to pick a pebble from the bag.
The girl was confused what to do. She knew that she was being cheated by the money lender . She thought for a while and then kept her hand into the moneybag and drew out a pebble . Without looking or showing it to anyone, she fumbled and let it fall into the pebble-strewn path where it got lost among the other pebbles.
" Oh, I am sorry, how clumsy of me", she said . " But never mind, if you look into the bag for the one that is left , we will know which pebble I picked ."
The moneylender dared not admit his dishonesty in front of the villagers . The black pebble in the bag made it look like the girl had chosen the white pebble . She did not have to marry the old moneylender and her father 's debt was waived. The villagers were there to witness the whole event which made the moneylender to keep his words.
The girl changed seemingly impossible situation into an extremely advantageous one.
There is always a way out of problems, don't give up your hopes and keep trying to look for solutions.
"When a goal matters enough to a person, that person will find a way to accomplish what at first seemed impossible."

– Asst. Prof. Abhishek Karkera

THE BEAUTY OF MATHEMATICS

Mathematics, oh mathematics, so divine,
Numbers and equations, in perfect line.
Geometry, algebra, and calculus too,
In the world of math, there's always something new.

From Aryabhatta to Ramanujan's great mind,
Mathematics is a treasure you will find.
In patterns and logic, it holds the key,
To unravel the mysteries, for all to see.

So let's embrace the beauty of math's art,
For in its precision, it touches the heart.
A language of truth, in every equation,
Mathematics, a source of endless fascination.

– Asst.Prof. Ajay R. Gupta

HARMONY IN DIVERSITY

Unity is the bond that ties us together,
A force that makes us stronger, now and forever.
When we stand as one, hand in hand,
We create a harmony that can withstand.

In unity, differences fade away,
And we see each other in a brighter way.
Together we can achieve great things,
And face whatever challenges life brings.

United we stand, divided we fall,
In unity, we can conquer it all.
Let's embrace our diversity and unite as one,
For in unity, our true strength is spun.

– Asst.Prof. Ajay R. Gupta

READ AND LEARN

STORY 1

In many countries, the game of chairs is played by making nine chairs FOR TEN CHILDREN and telling the children that the winner is the one who gets the chair, and the one who does not have a chair is out of the game. . .They then reduce the number of chairs each time and the child is out of the game each time until one child remains and is declared the winner. The child learns a culture of "I, me, myself, and to succeed, I have to outdo others. "Japanese kindergarteners also play this board game, but from a completely different angle. In addition to ten children, they also have nine chairs, but there they tell the children that they have no more chairs. If one of them is left without a chair, everyone loses.

All the children try to hug each other so that all ten can sit on the nine chairs. They reduce the number of seats one by one according to the rule that they have to make sure that no one is left without a seat or everyone loses. In this situation, the child learns the spirit of teamwork. The future of humanity lies in cooperation, not competition. It takes a change of heart and some small adjustments to make an impact. Let us all work together for a more harmonious life.

STORY 2

In the Mahabharata, Dronacharya tasked the eldest Pandava, Dharmaraja, and the eldest Kaurava, Duryodhana, with assessing the moral character of the kingdom's people. Dharmaraja returned, stating he could not find a single bad person and could only see faults within himself. Conversely, Duryodhana reported finding only bad people, unable to see any goodness around him. Dronacharya realized that their findings were shaped by their own mindsets: Dharmaraja, being virtuous, saw goodness in everyone, while Duryodhana, with his malevolent nature, perceived only the bad in others.

Yatha Drishti, Tatha Sristhi

Your Drishti (Vision) is what truly defines you. The world is as you see it and your perception of people reflects your own outlook towards life. Do not waste time in feeding negative thoughts and judging people. Be the change you want to See! Stay Positive. Be Kind and make this world a better place to live in.

STORY 3

Bethany Hamilton, a rising star in surfing known for her natural talent and fearless spirit, was born and raised in Hawaii, where she spent her days riding the waves. At 13, her life took a dramatic turn when a 14-foot tiger shark attacked her while surfing off Kauai, severing her left arm. Despite this devastating setback, Bethany's spirit remained unbroken. Just a month later, she was back in the water, determined to surf again. Learning to balance and maneuver with one arm was incredibly challenging, but Bethany's perseverance and love for surfing drove her forward.

She adapted her techniques, tirelessly rebuilding her strength and skills. Her remarkable comeback gained attention when she competed in her first major competition since the attack, finishing fifth in the Open Women's division of the NSSA National Championships. Bethany went on to become a professional surfer, winning national titles and inspiring countless people worldwide.

Bethany's story proves that where there is a will, there is a way. Embrace your true self and let your passion and purpose drive you to overcome challenges and emerge victorious. Her journey teaches us that while we cannot always control our circumstances, we can always choose how we react to them.

– Asst. Prof. Abhishek Karkera

MOTHER-THE HEART OF THE FAMILY

The most precious soul in the face of the planet earth. I would have really not realized the value of a mother unless I was one of them. The smallest sacrifices to the biggest compromises that she does for her child just goes unnoticed most of the time. Life completely takes a 360 degrees turn when you are a mother. You begin doing things for your children that you never thought you would and certainly did not do even for your partner.

And being a new parent, as a new mother, you also realize that some things are taking up too much of your time now. For instance, getting ready to leave is now a long process because you have to get your baby ready as well. It is not just your baby but all the things that need to be packed along with them and eventually also be unpacked wherever they go. On the other hand, you begin questioning whether you need to shower everyday. Forget exfoliating, forget baths. Quick 10 mins showers are all you can afford and all you seem to need. You also realize that you don't need an alarm clock anymore. When you have a baby or a toddler who is surprisingly punctual at the most inconvenient times. It's never easy when you're a new parent. Taking care of everything, from diapers to vaccinations, to feeding the baby at regular intervals to bathing, to having sleepless nights and juggling your life with work pressures.

Moreover, the struggle of a working mom is so much more than we can ever imagine. Unfortunately our society doesn't inherently value a working mother by simply saying, "it's her choice, she choose to work" but the mother has to think about the financial repercussions at the back of her mind as well. Its certainly not an easy job for a mother to leave her child with someone as long as she works in her office. With numerous insecurities, she'll still take a step of faith to go out and work but deep down her heart, she is continuously worried about her child. You can watch yourself grow from being a person to a parent. Everything else can wait. Her priority is her child and nothing else. Everyone and everything can take a step back now. You never expect yourself to change so much. A mother may seem to be tired, exhausted, but she is never out of service. This Mother's Day let's take a moment to thank all the wonderful and incredible Mothers who have selflessly raised or are in the phase of raising their children. Remember mothers you are doing an amazing job. Be proud to be one.

– Asst.Prof. Soma Prasad

KALPAVARSHIKA

There is a imaginary tree of the mortal world in the Surlok. This imaginary tree of the mortal world has such a quality that whatever wish is made while sitting under it, it gets fulfilled. Just as if a man wishes under that tree to get a crore of Rupees , then he will get them. If he wants any other thing, he will get that also. Mankind has been desiring such a Kalpavriksha for a long time. From the day it became known that this tree exists in this world, the inhabitants of the mortal world started trying to find out and obtain it. The reason is that who would not aspire for such a precious thing which has the power to fulfil every wish and give every desired thing? The whole world is eager to attain happiness. It is natural to desire this tree through which the desire for happiness can be easily fulfilled and to have great desires for it.

The imaginary tree of the mortal world(Kalpavriksha) is – Penance(Tapa). Penance(Tapa) means to bear hardships, to work hard and to make efforts. In ancient times, many people had attained blessings by doing penance. With the power of those blessings, those ascetic people have achieved many miraculous achievements. Only the ascetic and hardworking people are entitled to enjoy the opulence. Grains, Lentils and other such foods can only be digested by someone whose gastric fire is bright. Giving heavy food to a person with weak digestion is like making arrangements to kill him.

By doing penance, by making wise efforts with dedication, great and rare things are obtained. With the help of a shovel, the brave Farihad broke the mountain and dug a long canal. Kalidas started learning Olam Barakhadi(writing system used to teach children the Devanagari script) in his youth and within a few days he became one of the shining literary stars of India. We can see not just one but innumerable examples spread around us. Gold shines by heating, metals shine by brushing, weapons become sharp by rubbing, fire is created by rubbing. Through hard work and effort, many hidden powers and abilities emerge within man. Then through them one attains all the wealth which should be attained by Kalpavriksha. If you want to improve your physical health, then work hard for exercise, massage, self-control etc., your body will start becoming stronger in a few days. Knowledge, money, fame, leadership, morale, heaven, liberation, happiness, peace, whatever you want, strive for it. Hard effort, dedicated effort!! Unwavering efforts!! This is the basic mantra of success. To sacrifice today's sufferings for the golden hope of the future is penance. This penance is directly fruitful. The one who makes efforts will get the desired thing, if not today or tomorrow. This is how in today's modern generation penance means nothing but how much hard work, efforts peoples are making to achieve their aims and to be Successful in life.

– Asst. Prof. Anand Prajapati

BALANCING COINS AND DREAMS

In every Indian household, wise and keen,
Finances are managed with a careful sheen.
Expenses and savings, a delicate art,
Every rupee counted, every plan smart.

Mothers save coins in jars so bright,
Fathers plan budgets deep into the night.
Children learn early, the value of gold,
Stories of savings and wisdom retold.

Festivals come with a joyous cheer,
Yet, savings for future are always near.
Small sacrifices, a few dreams delayed,
For a secure tomorrow, carefully laid.

Each decision made with a thoughtful touch,
Balancing needs, but never too much.
Indian households, with hearts so wise,
Turn humble means into grand prize.

– Asst. Prof. Abhishek Karkera

YOU ARE MY PURPLE

In a world of colors, you are my purple,
A hue so deep, so rich, so subtle.
You bring a sense of calm and grace,
A beauty that time cannot erase.

Like the twilight sky at eventide,
You fill my heart with joy and pride.
Your presence is a soothing balm,
In your embrace, I find my calm.

With you, life is a vibrant dance,
Filled with love, laughter, and a chance
To see the world through eyes anew,
With every shade of purple, every hue.

You are my purple, my guiding light,
A beacon shining in the darkest night.
Forever cherished, forever true,
In this colorful world, I'm grateful for you.

कॉलेज

कॉलेज का पहला दिन घर आये मेहमान की तरह होता है जो
पहले दिन तो पराया लगता है पर कुछ दिन बाद अपना सा लगता
है
हफ्ते भर में दोस्ती का मतलब समझ आता है कुछ दिन बाद
टीचर का लेक्चर समझ आता है अगले दिन असाइनमेंट का
भंडार मिल जाता है देखते देखते सेमेस्टर नोटिस आ जाता है पता
ही नहीं चलता कॉलेज कब चला जाता है
क्या कॉलेज ऐसा ही होता है फिर सोचती हूँ तो समझ आता है
की कॉलेज कैसे होता है
आसमान में खुले बादलो जैसा होता है जहां हर प्रकार के
विद्यार्थियों को एक साथ लेकर उस ऊंचे आसमान में उड़ान भरना
सिखाया जाता है
डर को पीछे रख अपनी मंजिल को हासिल कैसे किया जाये वो
टीचर द्वारा बताया जाता है
छोटे छोटे फ़ंक्शंस द्वारा मेमोरेबल डे बनाया जाता है स्टूडेंट के
खूबियों को बढ़ावा दिया जाता है ऐसा होता है
हार और जीत का एक्सेप्टेन्स करना कॉलेज ही सिखाता है
क्या ही कहूँ कैसा होता है
ये कॉलेज के दिन जैसा कोई दिन नही होता है
इसलिए कहते है जी ले यारा ये दिन नहीं आयेंगे दोबारा.
(वो दिन भी क्या दिन थे)

PRIORITIES TO PERSONALITES

When I look out in the street
And see injustice and atrocities,
I have choices to remain in silence
Or to voice out against injustice
I choose not silence but to speak out
So that I may be a courageous, being one day.
When I return home at night,
And see my dear ones.
I have choices to fulfill my personal needs
Or the necessities of my dear ones
I choose not my need but the necessities of my dear ones
So that I may be a loving being one day.
The choices I make, changes my destiny and leads me to the rest of my life...
Today's priorities,
Tomorrow 's personalities.
Does GOD , HEALTH, ETHICS, VALUES AND RELATIONSHIPS are our priorities????
Having them in life..we possess great treasure,
The real worth of them we can never measure.

– Francina Divya

NURTURING SOCIAL RELATIONSHIPS: THE HEARTBEAT OF HUMAN CONNECTIONS

Social relationships are the cornerstone of our existence, shaping our identities, experiences and over all well being. In this article, we explore the significance of social relationships, their impact on individual lives and society and strategies for cultivating meaningful connections in an increasingly interconnected yet sometimes isolating world.

The Essence of Human Connection.

Ai its core social relationships encompass the bonds we form with others- family, friends, colleagues, etc. These connections provide emotional support, companionship and a sense of belonging that are essential for our mental and physical health.

Social relationships span a spectrum from intimate friendships and romantic partnerships to broader social networks. Each type serves a unique purpose, whether its sharing personal joys and sorrows, seeking advice and guidance, or celebrating achievements together. These relationships evolve over time and play a crucial role in shaping our identity and sense of self worth.

Strong social connections offer a large number of benefits beyond emotional support. They reduce the risk of mental health disorders such as depression and anxiety. In times of stress on adversity, having a network of trusted individuals to lean on can provide invaluable comfort and resilience.

Despite the benefits, modern society presents challenges to maintaining meaningful social relationships. Factors such as geographic mobility, busy schedules and digital communications can sometimes hinder face-to-face interactions & deep emotional connections. Virtual interactions are convenient, may lack the depth and intimacy of in-person engagement. Building and nurturing meaningful social relationships requires intentional effort and empathy.

Here are some Strategies Active Listening: Paying attention and genuinely listening to others and understanding them.

Open Communication: Being honest and transparent promotes trust and deepens connections.

Support & Empathy: Offering support during challenging & celebrating successes.

Quality Time: Prioritizing face to face interactions and minimizing distractions foster deeper connections

Beyond individual benefits, social relationships are fundamental to society. They form the basis of communities, fostering collaboration, mutual respect and a sense of collective identity." Strong social networks contribute to economic stability, political engagement, and social justice initiatives, during driving positive change and resilience in the face of stability adversity.

Social relationships are not merely incidental but essential to human flourishing and Strong social connections offer a large number of benefits beyond emotional support. They reduce the risk of mental health disorders such as depression and anxiety. In times of stress on adversity, having a network of trusted individuals to lean on can provide invaluable comfort and resilience. well-being. By investing in meaningful connections, we cultivate empathy, resilience and a profound sense of belonging. In a world shaped by rapid technological advancements and societal changes, prioritizing authentic human interactions remains pivotal for building a healthier, happier and more connected global community

THE ENDURING MAGIC OF BOOKS: A JOURNEY THROUGH PAGES

There is no friend as loyal as a book. A good book can uplift our mood instantly and leave a deep impact on us. A person who loves reading books can never feel lonely or bored as books are always there for his rescue.

Escapism and Imagination

One of the most enchanting aspects of books is their ability to transport readers to distant lands, imaginary realms and different time periods. Through vivid descriptions and compelling

narratives books ignite the imagination and allow readers to experience adventures, emotions, and perspectives beyond their everyday lives.

Education and lifelong learning.

In the realm of education, books remain indispensable tools for learning and intellectual growth. They form the backbone of academic curriculum, providing students with foundation knowledge, critical thinking skills and opportunities for intellectual exploration.

The Joy of Reading

Above all, books bring joy and fulfillment to readers of all ages. whether curling up with a classic novel exploring new genre, or sharing stories with loved ones. The quiet contemplation of words on a page create a Sensory journey that resonate deeply with bookworm and casual readers alike.

In a world where technology continues to reshape how we consume information and entertain ourselves, books remain steadfast symbols of wisdom, imagination and cultural heritage.

In essence, the journey through books is a testament to the enduring power of storytelling, the transformative impart of ideas and the timeless allure of words woven into the fabric of human existence.

(SYBCOM)

SOCIAL MEDIA & THE YOUTH

I like to share with you about a person of age 15 who is called THE PATRON SAINT OF MEDIA, INTERNET AND YOUTHS. Blessed Carol Acutis was born on 3rd May 1991 in London, in an ordinary and devote family. He grew up in the age of technology, internet and social media like most of us. He had a tremendous love for technology, internet, social media besides this he was also interested in swimming, playing, video games etc. He spent lots of time in playing Pokemon. He spent time with his friends defeating virtual monster and winning virtual battles. Because of his love for videogames many young friends joined him. At the age of 13 in 2004 he created his own website through which he made God known throughout the world. The social media did not win over him but he won over it.

His message to the youngsters of today is.....

- At your age when you were busy in posting your photos in social media I was busy in posting the photos of God and miracles of Eucharist.
- While you were busy in various poses with fake smile I was busy in discovering the true meaning of life in God.
- While you were busy in inviting many friends in Facebook, Instagram.....

I was busy in inviting many friends to God.

- While you were copying the lifestyle of others in short which resulted you dissatisfaction, unhappy...

I was busy in introducing God to the rest.

At the end you were left with no true friends but only fake friends, where as I won many young souls.

Today Carlo a boy of our age teaches each one of us how to use social media in an appropriate way with prudence.

Blessed Carol Acutis died on 12th October 2006 at the early age of 15 , setting an example to many young people. He was beatified on 10th October 2020 and was raised to Sainthood on 1st July 2024 by Holy Father Pope Francis in Rome.As saying goes 'What you sow,so you reap. Similar way Carlo Acutis sowed the seeds of Gods's mercy, love,compassion, devotion to Eucharist that God had rewarded him to be the youngest Saint in the world.Till date the body of Carlo Acutis remains INCURRUPT in Italy,Assisi.

I would like to end this article with this words.....

He said I am happy to die because I have lived life without wasting a minute.

As youngsters we tend to compare our real life to someone else's controlled online content. Only accept friend request from people you know. Carlo's life invites each one of us to live our own life original and purpose filled life. Again he invites us to have a good and healthy relationship with the real friends than virtual sense in Instagram, facebook, watsapp... Let us be genuine and real in what we say and do and thus we recognise our true self.

Thank you.

PERSONAL FINANCE

Personal finance is the cornerstone of financial stability and growth, encompassing budgeting, saving, investing, and managing debt to achieve personal economic goals. By creating a balanced budget, individuals can monitor their income and expenditures, ensuring they live within their means while setting aside funds for emergencies and future needs. Investing wisely and diversifying assets can help grow wealth over time, while prudent debt management keeps liabilities in check, preventing financial stress. Ultimately, effective personal finance practices empower individuals' duals to make informed decisions, secure their financial future, and enjoy peace of mind.

TECHNIQUE FOR PERSONAL FINANCE

1.Create a Budget: Track your income and expenses.

2.Save Before Spending: Allocate a portion of your income to savings before you start spending on other things.

3.Build an Emergency Fund: Set aside 3-6 months' worth of living expenses in a readily accessible account for unexpected expenses

4.Pay Off Debt: Prioritize paying off high-interest debt, such as card balances, to reduce the amount of interest you pay over time.

5.Live Within Your Means: Avoid lifestyle inflation and unnecessary expenses. Make conscious spending decisions based on your financial goals.

6. Track Your Net Worth: Regularly monitor your assets and liabilities to understand your financial position and progress.

7.Automate Finances: Use automatic transfers for savings, investments, and bill payments to ensure consistency and avoid late fees.

8.Educate Yourself: Continuously learn about personal finance, investment strategies, and economic trends to make informed decisions.

9.Set Financial Goals: Define short-term and long-term financial. goals, and create a plan to achieve them.

PRONS OF PERSONAL FINANCE

1.Financial Security: Proper management leads to savings and investments, providing a safety net for emergencies and future

2.Debt Reduction: Effective budgeting and planning can help reduce and eliminate debt, saving money on interest payments.

3.Increased Wealth: Investing wisely and saving regularly can grow your wealth over time, leading to financial independence.

4.Stress Reduction: Knowing your financial situation and having a plan reduces financial stress and anxiety.

5.Better Lifestyle Choices: Financial discipline allows for better decision-making, leading to a balanced lifestyle with controlled. spending

6.Goal Achievement: Setting and following financial goals can help you achieve major life milestones, such as buying a home, traveling or retirement

7.Improved Credit Score: Timely payments and low debt levels improve your credit score, making it easier to obtain loans with favourable items.

CONS OF PERSONAL FINANCE

1.Time-Consuming: Effective financial management requires time and effort for budgeting, tracking expenses, and planning.

2.Discipline Required: Sticking to a budget and long-term financial plan can be challenging and requires self-discipline.

3.Potential for Mistakes: Poor financial decisions or lack of knowledge can lead to mistakes that may have long-term negative impacts.

4.Stress and Pressure: Constant monitoring and controlling of finances can sometimes cause stress and pressure, especially when dealing with tight budgets.

5.Opportunity Cost: Money allocated for savings and investments might mean sacrificing current desires and experiences.

6.Market Risks: Investments carry risks, and market fluctuation can lead to loss.

7.Economic Uncertainty: External factors like economic downturns, inflation, and job loss can impact personal finances regardless of careful planning.

महिला सशक्तिकरण: एक आधुनिक दृष्टिकोण

महिला सशक्तिकरण हा एक अत्यंत महत्वाचा विषय आहे. ज्याने समाजातील महिलांना समाविष्ट करण्याचे अधिकार आणि संधी दिल्याचे आहे. समाजात महिलांची स्थिती अत्यंत महत्वाची आहे. कारण त्यात महिलांची भूमिका समाजाच्या विकासात क्रियाशील आणि अग्रेसर होऊ शकते. महिला सशक्तिकरणाच्या प्रक्रियेत महिलांना
स्वतंत्रतेची आणि न्यायाला स्थानिक करणारी सरकारच्या योजनांची आवश्यकता आहे. समाजातील स्थानिक आणि सामाजिक परिस्थितींच्या अध्ययनातून,सरकारी निर्णयांच्या संरचनेतून आणि समाजातील समाविष्टीच्या स्वरूपात महिलांच्या सहभागाची सुरक्षितता आणि सुरक्षा यांचा समर्थन आवश्यक आहे.

महिला सशक्तिकरण हा एक दायित्व आणि सौजन्याचा मुद्दा आहे. अनेक समाजांमध्ये, महिला स्वतंत्रतेची स्थिती एक गोंडाळ असू शकते, परंतु त्यांना शिक्षा, आरोग्य आणि आर्थिक स्वतंत्रता यांच्या माध्यमातून सुदृढ करण्यात सक्षम आहे.
असा एक समाज जे महिलांना त्यांच्या न्यायाला, स्वतंत्रतेला, आणि समाजातील विकासात त्यांच्या योगदानाचा समाविष्ट करणार आहे, त्यामुळे एक स्थिर, समृद्ध आणि संतुलित समाज विकसू शकतो.

या प्रकारे, महिला सशक्तिकरण हा एक समाजातील विकासाचा अभिन्न भाग आहे. त्याची प्राथमिकता देणारे समाजातील संघर्षांचा मुक्त उचल आहे ज्यात महिलांचि स्थिती व समाजातील समाविष्टीचे स्थिरीकरण केला जाईल.

KALYUG

In this age of Kali, so they say,The world is dark and lost its way,
The righteous struggle to find their place, As evil spreads at a relentless pace.
Greed and corruption reign supreme, And honesty is just a fading dream,
Morals and values are cast aside, As people chase their selfish pride.
Technology may have advanced, But morality seems to have lapsed,
The world has become a battleground. Where the wicked and selfish are crowned.
In this era of Kali, we must strive. To keep our conscience and values alive.
For in the darkness, we must be the light, To guide the lost and show what is right.
Let us not be consumed by hate, Or fall prey to the urge of fate,
For only by staying true to hearts, Can we hope to heal the world's broken parts.
In this age of Kali, let us join. To fight against the wrong and shine bright,
For only then can we hope to see, A brighter future, a world that's free.

(FYBMS)

FASHION AMONG YOUTH

Fashion among youth is a dynamic and ever-evolving phenomenon, reflecting their desire for self-expression and individuality. In today's digital age, trends are heavily influenced by social media platforms like Instagram, TikTok, and Pinterest, where influencers and celebrities showcase the latest styles. Young people are not only consumers but also creators of fashion trends, often mixing high-end brands with thrifted finds to create unique, personalized looks. Sustainability has also become a significant factor, with many youths prioritizing eco-friendly and ethical fashion choices. Streetwear, vintage, and athleisure dominate the scene, embodying the casual yet trendy aesthetic that resonates with the youth culture. Overall, fashion among youth is a vibrant tapestry of creativity, identity, and social consciousness.

Poem

In the age of digital glitz and gleam, Where youth find voice in fashion's dream,
A tapestry woven, bright and bold, Stories of style and tales untold.

From Instagram feeds to TikTok's sway, Trends are born and fade away,
High-end brands with thrift store grace, In every stitch, a new embrace.

Streetwear strides on busy streets, Vintage whispers of past feats,
Athleisure reigns in casual might, Day and night, a fashion fight.

Sustainability's call is heard, In conscious choices, hearts are stirred,
Eco-friendly, ethical, true, The youth weave dreams in shades of new.

In threads of denim, silk, and lace, Their identity finds its place,
A canvas vast, their spirits free, Fashion, their voice, for all to see.

Quotes

"Youth is the ultimate symbol of fashion, representing boldness, creativity, and the constant evolution of self-expression."

THE POWER OF SOCIAL JUSTICE IN EDUCATION

Social justice in education is a critical imperative that seeks to address the systemic inequalities and biases that perpetuate educational disparities. By recognizing the intersections of race, class, gender, sexuality, and disability, social justice in education aims to create a more inclusive and equitable learning environment. This requires dismantling the structures that perpetuate marginalization, such as racist curricula, ableism, and patriarchy.

Educators must prioritize critical pedagogy, cultural responsiveness, and student voice to empower learners from diverse backgrounds. Moreover,policy reforms and community engagement are essential for allocating resources and addressing socio-economic barriers.

By social justice, education can become a transformative tool for liberation, rather than a perpetuator of oppression. By working together, we can build a more just and equitable education system that fosters the success and well-being of all students. Why is social justice important in education?

The answer lies in the fundamental principles of fairness, equity, and inclusivity. Addressing injustice in the education system is a critical aspect. Promoting social justice in schools can create a nurturing environment where all students feel valued and empowered to succeed. It also prepares them to become active citizens who challenge and dismantle systemic community inequalities. Social justice in education is a moral imperative and a catalyst for positive societal change.

When we prioritize social justice in education, we are addressing students' immediate needs and recognizing the importance of social justice in education. By dismantling systemic barriers and providing equal access to resources and opportunities, we can narrow the achievement gap and ensure every student has a fair chance of success. This, in turn, has a ripple effect on society, leading to a more just and inclusive community.

Additionally, social justice in education empowers students to become agents of change. By teaching them about social issues, encouraging critical thinking, and fostering empathy, we are equipping them with the tools to challenge injustice and advocate for a fairer society. By instilling values of equality and justice in the next generation, we are laying the foundation for a more inclusive and harmonious future.

In conclusion, social justice in education is not just a theoretical concept but a practical and necessary approach to creating a more equitable and inclusive society. By defining social justice in education and understanding its importance, we can work towards transforming our educational systems to serve all students better, regardless of their background or circumstances. Through the lens of social justice, we can achieve educational excellence and create a brighter future for future generations.

Thank you! I'm glad I could provide a detailed and comprehensive explanation of social justice in education. It's a vital topic that requires a thorough understanding of the complex issues and structures that shape our education system. By exploring the intersections of social justice and education, we can work towards creating a more inclusive and equitable learning environment that empowers all students to succeed and thrive.

I.T IS A LIFE CHANGER

Introduction

In today's fast-paced, tech-driven world, Information Technology (IT) has become an integral part of our daily lives. But did you know that IT can also be a powerful tool for personal growth and transformation? In this article, we'll explore how IT can be a life or Future changer, and share some inspiring stories of how it has made a positive impact on people's lives.

Empowering Connections

IT has made it possible for us to connect with others across the globe, fostering collaboration, communication, and community building. Social media platforms, online forums, and video conferencing tools have broken down geographical barriers, enabling us to connect with people from diverse backgrounds and cultures.

Access to Knowledge

The internet has democratized access to information, making it possible for anyone to learn new skills, explore new interests, and expand their knowledge. Online courses, tutorials, and resources have made education more accessible and convenient than ever before.

Career Opportunities

IT has created a vast array of career opportunities, from software development and data analysis to cybersecurity and digital marketing. With the rise of remote work, IT professionals can now work from anywhere in the world, providing flexibility and work-life balance.

Inspiring Quotes

“ Technology is a powerful tool, but it's not a replacement for human connection and creativity. It's a tool that should be used to enhance our lives Technology, not control them”.

“The best way to predict the future is to invent it, and that's exactly what we're doing with Technology.”

*** Conclusion ***

IT is indeed a life changer. It has the power to connect us, educate us, and empower us. As IT Says:- *While(!(success = try())); * By harnessing the potential of IT, we can transform our lives, achieve our goals, and make a positive impact on the world around us.

(FYBSCIT)

HAVE GADGETS RESTRICTED CHILDREN'S IMAGINATION

I start by quoting one of the greatest artists that ever lived, Pablo Picasso. He said that "Everything you can imagine is real." But what do you do when the imagination is not natural, nowadays influenced by technology? There isn't a better way to summarize today's scenario than this question. Millions of people are captivated by the beauty of the updated software, the attractive displays, the interactive apps, and the dynamism of the gadgets. All these people live daily with their heads bent and lowered in front of their devices, and people still say that Akbar was the greatest emperor who ever lived. The generation affected the most by this technological advancement is mine. Kids and teenagers seem to be the most vulnerable to the negative influence of technology because their mentality and worldviews are far from being developed to the fullest.

Well, what would we define imagination as then?

According to the scientific concept of cognitive psychology. divergent thinking is the reason that creative explanations are processed in our brains. In normal daily life when you think about things from the perspective of "what if?", that time your brain sparks up and adds more fuel to this ordinary thought. Functions and senses such as observation, visualization, memory, association, and reasoning work together to shape the ordinary into the extraordinary. But this whole process is effort-driven. Effort is the main driver of imagination. Only when the mind is ready to think out of the box and accept new possibilities and changes, can this whole process succeed. Effort is the link missing in today's children. When a task or any work is assigned to them that includes thinking and creativity, no effort is taken to self-assess the task. One simply goes on the web and surfs for the answers. For e.g., when people use Pinterest for artistic references but end up using them as their original pieces; or times when school projects and assignments are taken from the Internet.

When children use gadgets for their education, they don't have enough time for self-reflection and analysis. As a result, imagination degrades. Our brain doesn't think it needs some analysis because everything can be solved with the help of smart gadgets. The effort part has already been done by someone who had imagined that particular design or the answers to one of the questions. Once you catch a glimpse of it, you cannot pry your eyes away from it. At this point, it is no longer imagination but influence and that is exactly what is happening today and that restricts children's imaginations. Due to such interaction, their mind begins to create a unique world of their own. Steadily, unimaginable projects turn into real ones. Kids begin to formulate logical connections and find new and more uncommon ways to solve different issues. However, when they do not interact with the real world but use electronic mediums they are deprived of such abilities.

The reality is that this generation is not prepared for the chaotic nature of today's technology. Children are not prepared for such a great challenge. They do not have enough experience. The fact that everything is readily available for them served in a plate and kept in front of them, all they have to do is just take the effort of eating/ate Win it. We have to make them use their own minds and be in touch with physical mediums through drawing on paper, reading books, playing outdoor games, doing object explorations, ete. If not, then they might not be Settings to able to develop complete imagination skills and will always turn to their gadgets. The sooner we together as a community have this moment of realization, the better for our children and the future that lies ahead.

(FYBMS)

EQUAL JUSTICE TO ALL

As we know that justice means giving punishment to guilty one and achieve the justice by the victim. But, now a days the meaning of justice has been changed, the person committed sins are not held responsible and the victim are not getting any rights on the complaint they are charged the criminal. Our law has been bribed by certain officers who get lumsum money from the person committed sins so that they won't get arrested and their reputation will not be ruined.

There was a case of a young girl and boy of Pune, who died due to accident. The accident was done by the boy of a rich family and he was a minor and he was drunk while driving the car. The speed of car was beyond limit and the victims were going back to their home after work discussing about their future plans but they didn't know the next moment they will die. The moment the car hit the couple, their dreams were shaken, the boy ran as if nothing happened. The next morning the accident case came out that the boy's rich father bribed the Pune police officer to not held him guilty and less the punishment. The one's whose dreams are broke, parents who lost the children their hope to live were seeking for justice but the guilty one only got the punishment of writing a lengthy essay and just work with traffic officer for a month that's it , is it a justice to the young couple. Is this how law has been in work?

Our law states if the accident in drunk and drive cases the person is liable for imprisonment and fine and if it's a minor then he/she will be sent to remarned home as a punishment and will work their to pay off the fine money. But what happened we know in the accident case of Pune City couple. The parents of the young couple are still seeking for justice they think our law will give the punishment and will give justice to their kids. The supreme court should investigate this matter very seriously and held responsible the officer who took the bribe and fire him from job by giving liable punishment under law.

Our country's law is very strong and states to give equal rights to everyone in our country. But at times laws are misused and the person don't get justice. That's why I wrote this article to say that our law has been misused by the officer by rich people and the one's who suffer is middle class or lower class one's. Like Pune City there will be many cities where the guilty one's are not punished and the victims are suffering and seeking for justice some might happen to give up on our country's law.

– Anita Arethiya
(TYBMS)

PURPOSE OF EDUCATION

“Education" refers to the information we gain and experience outside of books or classrooms as well as the knowledge that are we receive and experience in School our home and as members of Society

"It must be remembered that the purpose of education is not to fill the minds to student's with facts it is to teach them to think, if that is possible and always to think for themselves!”

" Education purpose is not the learning of facts, but the training of the mind to think, according to your role model. Gathering a load of information Ps easily possible in the present age of the internet and technology. Being able to answer every question does not guarantee or prepare you for a life where experience and knowledge. Is accounted for. An investment in knowledge the best interest!"

Education is the pathway a nation's for a Education is the backbone of society. The government Should take all measures to provide education to every individual of the country.

But, In our country, the government provides free education to student up to secondary level. A country can't be developed in proper way if the citizens of the country are not well educated .Thus our government is trying to conduct different awareness programs in different remote areas of the country and trying to make the people aware about the importance of education.

Always remember once A.P.J Abdul Kalam .said, “learning give creativity, creativity leads to thinking provides knowledge and knowledge make you great.” Education empowers everyone. It is an important aspect that shapes the modern and industrialised world.

“Education is the most important weapon to change the world”.

NAVIGATING THE STORMS OF TECHNOLOGICAL CHANGE: OPPORTUNITIES, CHALLENGES, AND STRATEGIES

In today's fast-moving business world, technological change is a constant force that organizations must manage to stay ahead. This storm of innovation brings both opportunities and challenges, especially in the fields of development and programming. The rapid pace of advancements in tools, languages, and methods requires a proactive approach to adaptation.

Organizations that successfully navigate this technological storm can unlock many benefits. Modern development frameworks and programming languages often boost productivity, simplify workflows, and improve performance. For instance, moving from traditional monolithic systems to microservices architecture allows for more scalable and easier-to-maintain systems. A notable example is Netflix, which transitioned to microservices to handle its massive user base and improve system reliability. Moreover, adopting cutting-edge technologies like artificial intelligence and machine learning enables companies to offer smarter products and gain deeper insights from data, providing a vital competitive edge. For example, Tata Consultancy Services (TCS) uses AI to optimize supply chain operations, resulting in significant cost savings and efficiency improvements.

However, dealing with this storm is not without its challenges. The cost of adopting new technologies, both in terms of financial investment and the resources needed for training and integration, can be high. For instance, Infosys invested heavily in reskilling its workforce to keep up with the latest technological trends. Additionally, resistance to change among employees can be a significant hurdle. Overcoming this resistance requires effective change management, clear communication of the benefits, and strong support systems. Wipro, for instance, implemented comprehensive training programs and change management strategies to ensure a smooth transition to new technologies.

To handle the challenges and take advantage of the opportunities brought by technological change, organizations must foster a culture of continuous learning and agility. Gradually implementing new technologies, strategic planning, and partnering with technology providers can also reduce risks and ensure smoother transitions. In this ever-changing landscape, the ability to adapt quickly and effectively to technological change is a hallmark of a resilient and forward-thinking organization. For example, Reliance Industries has successfully partnered with global tech leaders to adopt and integrate advanced technologies, driving innovation and growth.

By looking at these examples, it becomes clear that while navigating the storm of technological change is challenging, it is also immensely rewarding for organizations that manage it well.

UNDERSTANDING POVERTY AND UNITY : KEY ELEMENTS OF SOCIAL PROGRESS

Poverty is a condition where individuals or communities lack basic necessities such as food, shelter, and clothing. It affects millions worldwide and poses significant challenges to societal harmony and progress. However, amidst this challenge lies an opportunity for unity and collective action.

What is Poverty?

Poverty isn't just about not having money; it's about lacking access to essentials like healthcare, education, and clean water. People in poverty often face daily struggles to survive and thrive. This issue is complex and multifaceted, influenced by economic, social, and political factors.

The Impact of Poverty

Poverty affects individuals and communities in profound ways. It limits opportunities, perpetuates inequality, and can lead to social unrest. In impoverished areas, crime rates may rise, health outcomes worsen, and educational attainment diminishes. This cycle can trap generations in hardship, making poverty a persistent challenge.

Unity in Diversity

Amidst these challenges, unity plays a crucial role. Unity means coming together despite differences to address common issues like poverty. It involves collaboration, empathy, and mutual support across communities and nations. When people unite, they can amplify their efforts to alleviate poverty through advocacy, policy change, and direct assistance.

Why Unity Matters

Unity is powerful because it brings diverse voices and resources to the table. It fosters understanding and solidarity among people from different backgrounds, cultures, and beliefs. By working together, individuals and organizations can create sustainable solutions that uplift disadvantaged communities and break the cycle of poverty.

Individual Actions Matter

Every individual can contribute to unity and poverty alleviation in their own way. Whether through volunteering, donating, or raising awareness, small actions collectively create a ripple effect of positive change. By fostering empathy and understanding, individuals can break down barriers and build stronger, more resilient communities.

Looking Ahead

Addressing poverty requires long-term commitment and innovation. It's about empowering individuals, fostering economic growth, and ensuring everyone has the opportunity to thrive. By embracing unity and working together, we can create a future where poverty is reduced, and every person can live with dignity and hope.

Conclusion:

Poverty and unity are interconnected aspects of our global society. While poverty presents challenges, unity offers a path forward through collaboration and collective action. By recognizing our shared humanity and leveraging our strengths, we can build a more equitable world where everyone has the opportunity to fulfill their potential

CAMPUS LIFE

Where Books and laptops, endless quest,
Learning, laughing, feeling blessed.

Cafe chats and study groups, Sharing laughter,
jumping hoops.

Campus life, a vibrant scene,
Where every day's a new routine.

In this journey, hand in hand,
College life, forever grand.

– Anchal Sharma
(FYBAF)

ALWAYS AND FOREVER

Always and forever, hand in hand,
Through the trials and joys, we'll stand.
In each other's hearts, we're bound,
Together, our love knows no bound.
Through the storms and sunny weather,
We'll face it all, always together.
No matter what life may bring,
Our love will forever sing.
With you by my side, I'll never fear,
Our bond is strong, crystal clear.
Always and forever, side by side,
In this love, we'll forever abide.
So let's cherish this love we share,
Always and forever, beyond compare.
Through the years, through every endeavor,
Our love will last always and forever.

– Anonymous

ZINDAGI

Duniya me logo ke paas jeene ka har lamha hota he..
bas, jeena aana chahiye..!
Kisi ke peeche ya fir kisi ke intezar me itna na kho jao, ki khud ki zindagi jeena hi bhul jao..
Wakt kabhi kisi ke liye nahi rukta, waise hi log bhi kisi ke nahi hote..
Aaj dekhte he na ki hum, har insan kisi na kisi chiz se pareshan he, dikkat me he..
Or har chiz ki log “numaish” karne ke liye baithe hue he..
Koi ye nahi sochta ki yaar, Jo chiz hamare paas he vo shayad kisi or ke paas ho ya na ho;
kisi ko kya pata..kyuki, jaha insan toot-ta he na..
jab-jab vo shaks kehne lage ki yaar, bas hogaya bhot dukh-takleef me hu..
bhot jee li zindagi ab nahi chal paunga meri umeed mujhe aage nahi badhne de rahi..
fir; waha se vo “Rab” haath pakadna shuru karta he or fir wahi is sansar roopi sagar ko paar karata he..
kyuki..vo rab me itni Shakti he na, jo ki insaan me nahi he..
bas; yahi fark he insaan or bhagwan me..
warna aaj insaan yahi brahm or ahankar kar leta ki mujhse bada or koi nahi he..
Log kehte he ki hum he tumhare liye but actual me koi nahi hota zindagi me tumhara..
siwaye tumhare Rab ke..
kyuki, jinse door nahi reh pate na hum, aksar unhi se hamesha doori ban jati he..
zindagi ka yahi "dastoor" he ki log chale jate he; kahaniyo me koi dusra aajata he; or log wahi hote he;
bas kirdar badal jate he..
Joh ja chuka he,
usey yaad karte he,
kisi se ab ye dil na lage,
rab se yahi fariyad karte he,
sab jante he mohabbat me,
rakha kuch bhi nahi he,
na jane fir bhi kyu log,
iske piche Zindagi barbaad karte he…

MY HAPPY PLACE!!

On stage, under the bright spot light,
Acting out dreams, day and night...
With every role, a story to weave,
In the world of make- believe,
I believe!!!
I tried to profound myself there....
In make-believe, i found what's rare.
I believe in expressing the emotions out,
Through the character that makes me proud!
Every step...that I was taking on stage,
I didn't realise that I was
writing memories on every new page!!!
It's my happy place
where I feel like home, whole,
where I'm ME!!!.,
Living out my passion wild and free...
peacefully and happily!!

ST. ARNOLDS NIGHT DEGREE COLLEGE CELEBRATES SUCCESSFUL FIRST-TIME AFFILIATION, OPENING DOORS TO NEW OPPORTUNITIES FOR STUDENTS

Date: December 16th, 2023

In a landmark event, our institution was granted affiliation after a comprehensive review by a first-time affiliation committee. The committee, consisting of Dr. Debajit N Sarkar – Convenor, Dr. Vishwambhar Jadhav – Member and Dr. Vijayanti Ulhas Dixit – Member, conducted a meticulous evaluation of both campus facilities and administrative documents.

Upon their arrival, the committee was warmly greeted by Rector Fr. Scaria Pannackal, Financial Administrator Fr. Callisto Gomes, Mr. Francis Antao, Mr. Shubham Jadhav, Mr. Ronald Mendonca, and the I/c. Principal Dr. Sharon Samuel, and staff members.

The convenor initiated the visit with a brief introduction to the committee's objectives and the day's agenda. Following this, the campus tour commenced. The tour began with a visit to the academic blocks. The committee inspected the classrooms, laboratories, and faculty rooms, focusing on infrastructure, seating arrangements, and the availability of modern teaching aids such as projectors and smart boards.

Next, the committee visited the library, where they assessed the collection of books, journals, and digital resources. They received a detailed overview of the library management system and the various services offered to students and faculty. The computer labs were thoroughly inspected for their hardware and software facilities.

The committee checked the student-to-computer ratio and the availability of high-speed internet. They also reviewed the cybersecurity measures in place to protect data and maintain privacy. The tour included a stop at the auditorium and seminar halls.

The committee examined the seating capacity, acoustics, and audio-visual equipment, appreciating the well-maintained facilities essential for hosting events and seminars. The committee was then taken to the sports and recreational areas, where they reviewed the sports equipment and outdoor fields. The sports committee head briefed them on the various sports activities and fitness programs available to students. After a comprehensive evaluation, the committee convened a meeting with the institution's management to discuss their findings. The convenor provided constructive feedback, highlighting the strengths and areas for improvement. The committee appreciated the institution's efforts in maintaining high standards of education and infrastructure.

Finally, the convenor announced the committee's decision to grant affiliation to the institution. This approval marks a significant milestone in our journey towards academic excellence. The visit concluded with a vote of thanks delivered by Ms. Aishwarya Pednekar, and the committee departed, leaving us with valuable insights and the motivation to strive for continuous improvement.
